FREADING
a new look at library lending

Download from Freading to an Android Device

Freading is another way for you to enjoy eBooks from the Whatcom County Library System (WCLS) anytime, anywhere. Freading currently has over 10,000 titles from every genre in its collection and more eBooks are being added each week. The best part? Books are always available - no waiting, no holds lists and no late fees!

Freading is compatible with the following Android devices: Samsung Galaxy, Sony, Toshiba, Acer, Asus and Xoom.

In order to download e-books from Freading to a mobile device with the Android operating system, you must first install the Freading app.

- Once the Freading app is installed, you will need to activate it with your **Adobe ID**.

- Open the ebook with the Freading app.

The Token System

- Every Monday morning, you are given 5 download tokens. Each e-book download uses between 1, 2 and 4 tokens, depending on demand for the book. The number in the top left corner of each book is the number of tokens it "costs". Your unused tokens rollover to the next week, but all tokens reset to 5 again every four weeks. In the top right corner of the Freading screen you can see how many tokens you have used.

- Freading e-books check out for 14 days, at which point they can be renewed for another 14 days. Simply go to the book display on the WCLS Freading website and download the book again. Renewals for the newest titles cost one download token, but older books renew for no cost.
